PROFESSIONAL SUMMARY

Motivated Software Tester with a foundation in manual testing, test case design, and bug identification. Skilled in using Postman for API testing and validation. Detail-oriented and analytical, with a commitment to accuracy and clear documentation. Quick learner, enthusiastic about expanding knowledge in software quality assurance and contributing to reliable, user-friendly applications.

EDUCATION

Velammal Institute of Technology , Tiruvallur, Tamil Nadu	<i>Passed out: 2026</i>
<i>B.Tech in Information Technology (Anna University)</i>	<i>CGPA: 8.60</i>
St. Michael Matric Hr. Sec. School , Madurai, Tamil Nadu	<i>2021 – 2022</i>
<i>Higher Secondary School</i>	<i>Percentage: 83.16%</i>
St. Michael Matric Hr. Sec. School , Madurai, Tamil Nadu	<i>2019 – 2020</i>
<i>Secondary School Leaving Certificate</i>	<i>Percentage: 77.06%</i>

EXPERIENCE

AI & ML Intern	<i>Apr 2026 – Sept 2026</i>
<i>SIRPI Products and Services Pvt. Ltd., Hebbal, Bengaluru</i>	

- Learned the fundamentals of software testing (manual and automation, API testing basics).
- Developed and maintained courteous and effective working relationships.
- Adaptable and proficient in learning new concepts quickly and efficiently.

PROJECTS

Login Test Suite – QA Test Manager | *Selenium, Pytest*

- Built a robust automated testing framework using Selenium and Pytest.
- Automated UI validation, positive/negative workflows, and security checks.
- Integrated screenshot capture, HTML reporting, and headless execution for CI/CD pipelines.

Alcohol Detection & Smart Helmet Safety System | *IoT Project* *Role: QA Tester*

- Tested alcohol detection, helmet detection, and engine-control modules.
- Validated sensor outputs and system responses under different test conditions.
- Verified that the engine was disabled when the helmet was not detected.
- Executed functional, positive, and negative test scenarios and reported defects.
- Tested end-to-end interaction between sensors and the engine-control mechanism.

TECHNICAL SKILLS

Manual Testing: Test case creation, bug reporting, regression testing

Automation Basics: Postman (API testing), Selenium, Pytest

Version Control: Git, GitHub (repo setup, branching, commits)
